

Mental Health Center Help Needed In Glades

The proposed \$12 million Comprehensive Community Mental Health Center of Palm Beach County will be constructed just west of St. Mary's Hospital in West Palm Beach with the help of a \$625,000 grant from contributions in the same amount from county citizens and organizations. To date,

over \$300,000 is still needed to reach a goal of \$25,000. In July and August this year, the fundraising and information committee of the center's board of directors will be working in the Glades area. Contributions to the important drive may be made to 909 Fern Street in West Palm Beach. Telephone 832-3055.

Public Rejects South County I-95 Connections

Public reaction to funding proposals by County Commissioners Vice Chairman George Warren and East County eastward road connections with proposed Interstate 95 was a dampener on the possibility. For such links, the board was informed Tuesday.

Commissioner George

Frost, in a letter which Warren read into the record "with regret" said the reaction to the connecting road funding through special taxing districts has led him to believe that the two agencies that "crossing roads needed not now assured."

The engineers had noted that a narrow 10-foot-wide road between offices of two county agencies at 81-93 design and construction from Dixiechase Road south to Broward County was "heartening."

When reading the letter, Warren quoted Frost's confidence earlier in local funding since "the bulk" of costs would be at high as possible. The letter said the roughly had estimated costs for nine I-95 connecting links in the South County at \$4 million to \$5 million.

Absent from the regular commission meeting, Frost was attending a session with State Road Department officials on Tuesday. Commissioner Edward Hardin also was absent due to illness.

AMERICAN LEGION

A Legion post highlighted the July 16 meeting of American Legion Post 20, according to Herbert Bubin, Commander. The Legion has a pot-luck supper the third Tuesday every month. Bubin said.

A Legion-sponsored bingo open to the public, is being held every Thursday evening at the Glades Experiment Station. The Legion has a pot-luck supper the third Tuesday every month. Bubin said.

Normally the first of each year is dry, and this year is no exception. A rainfall through March even showed a decrease of 1.29 inches from last year. Rainfall in May of last year increased 2.07 inches.

Grants Store In Belle Glade Hits New High

Bill Witsback, manager of the W. T. Grant store in Belle Glade, Fla., today announced Company sales for the month ended June 29, 1968 of \$83,066,576, up 12.5% from \$37,596,707 for June 1967 sales of \$72,651,111.

Sales for the 5-month fiscal period ended June 29th likewise hit a new record level of \$331,995,145, up 12.64% or \$43,087,995 from the like period of \$340,892,446 for the like period.

During the next 10 years, the Glades will be rescheduled at a later date, said Cole.

FLORIDA CONVENTIONS

Florida this year will net \$200 million from sales meetings and conventions attended by one million persons, reports Florida Trends Magazine in its July issue which refers to the conventions as "an industry without a smokescreen." The business and social meetings, says Cole, is becoming a leader in the field but still only gets about 6 percent of the total annual conventions in the nation and 8 to 10 percent of the total attendance.

During the next 10 years, the Glades will be rescheduled at a later date, said Cole.

Mrs. Barbara Morris, 1239 Stillwell Road in Belle Glade received her winnings in the Mountain Dew Mini-Lite contest sponsored by Pepsi Cola last Thursday. The Mini-Lite was presented to Mrs. Morris by Charles Cooper, Pepsi Cola distributor for this area.

Dan Beardsley Named New Head Of Experiment Station

Dr. David W. Beardsley, an animal nutritionist at the Belle Glade Experiment Station, has been appointed its new head, University of Florida President Stephen C. O'Connell announced.

The Board of Regents approved Beardsley's appointment at its meeting in Pensacola. He assumed his new duties on July 1.

The 45-year-old scientist, formerly with the Belle Glade local conditions, having been associated with the Everglades Experiment Station as far back as 1949 when he was an assistant animal husbandry.

Dr. E. T. York, Jr., project for agriculture, said Dr. Beardsley has done numerous studies on beef cattle nutrition, including the level of concentrate feed on pasture for finishing steers, vitamin E requirements for beef cattle and raw sugar as a replacement for corn for cattle.

Recent steer feeding studies carried out by Beardsley and others at the Everglades Station have led to many different kinds of feeds and combinations of these feeds. Beardsley's work has been placed on locally produced materials.

"The research has been directed to increasing our use to best advantage the quantity and quality of forages which can be grown in the Everglades," said Dr. John W. Stiles, director of research with the Institute of Food and Agricultural Sciences (IFAS).

Board members learned that Dr. Florida Turnpike Authority may discuss a proposed plan to widen the Blue Heron Road, which was low bidder, \$322,344 for the system to provide drainage for the area between Old Dixie Highway and North Parker Avenue. They authorized Assistant Engineer George W. Kessel to meet with the contractor.

**Florida Power and Light Given
National Development Award**

The National Society of Professional Engineers has selected the Florida Power & Light Company on its annual meeting in Milwaukee on July 6.

FPL was chosen on the basis of "record of advancement and improvement of the engineering and technical development and use of forward-looking engineering employment practices."

The Award Committee considered professional working conditions, engineering management practices, education and additional training, engineering-management communication, orientation programs, salary plans, merit review programs and job evaluation systems.

This was the first time a Florida company, or a public utility, has won the NSPE award. Firms honored in previous years included the Kodak Co. of Rochester, N.Y.; R. J. Reynolds Tobacco Co. of Winston-Salem, N.C.; Phillips Petroleum Co., of Bartlesville, Okla.; and E. I. du Pont de Nemours & Co., Wilmington, Del.

**REGISTRATION
FEE CHANGE**

A new regulation from the State Department of Education has increased the amount of registration fees for the Fall Term at Palm Beach Junior College for most students who now live in Florida, but outside Palm Beach County. The new ruling does not affect fees for students whose residence is in Palm Beach County, nor those who are from out of the state.

ROBERT MACHT

Robert Macht, chairman of the board of Jordan Marsh Florida, has been named a resident member of The Florida Council of 100, according to an announcement by Council Chairman Fred D. Leary and Gov. Claude R. Kirk, Jr.

A native of Syracuse, N.Y., and a graduate of Syracuse University, Macht also is vice president of Allied Stores Corp., New York, and group manager for Allied Stores, in charge of J. L. Marine, Florida, Mass Bros. Inc., of Florida, Mobley & Carew Co., Cincinnati, and Dey Bros. & Co., Syracuse.

**Small Business
Loan Applicants
Interviewed**

The Small Business Administration representative will interview loan applicants of this area on Thursday, July 18th in the Office of Economic Opportunity Development Board, 2005 Okeechobee Boulevard in West Palm Beach. Appointments for interviews between the hours of 9:00 A.M. and 4:00 P.M. may be made by calling 683-9450.

The Small Business Administration provides assistance to the business community through programs of financial assistance (loan program), management and procurement assistance. Most all business concerns in the country are eligible for assistance if needed as approximately 95 percent of the business concerns in the nation fall within the small business size guidelines. During the recent visits in this area, 29 applicants interested in Small Business Loans have been interviewed.

A minimum of 10 percent down payment should be brought with the application. The basic financial statement of the business must be reasonably accurate, as well as the amount of loan needed and for what purpose the funds will be used. This basic information will enable the SBA representative to determine the feasibility of the loan and he will then provide counseling as to the proper steps towards applying.

Small business loans may be made for the purpose of financing a new business, construction of buildings for business, purchase of machinery, equipment, business furniture, as well as purchase of inventory and for operating capital.

Before you sign an in-
stallment contract, be sure to
know under what conditions the
loan can be repaid.

THOUGHT OF THE WEEK

A Politician thinks of the next election; a statesman, of the next generation.
James Freeman Clarke

SENSING THE NEWS

By Thurman Sensing

EXECUTIVE VICE PRESIDENT

Southern States Industrial Council

In urging that 18-year-olds be allowed to vote, President Johnson has made a proposal that has a superficial appeal but little wisdom.

Those who advocate lowering the voting age from 21 to 18 might be grouped into two classifications: (1) those who are swayed by the emotional appeal, and (2) those who are much more serious, thoughtful (2) self-seeking politicians who think they would gain votes — and those politicians are most confident in either political party.

The only thing that can be done with the politicians is to convince them that this is not a popular idea. — Wherever they are, they would drop the idea very quickly — but common sense and reason should appeal to the first group.

Before the people generally are led to vote for such a proposal, it will be in order to consider some of the situations that might have escaped our attention and at least consider the matter more thought and not be misled by the emotional appeal of some catch phrase or other.

The catch phrase, generally and not so much for a proposal, is that it will be in order to lower the voting age is that "if our boys are old enough to fight they are old enough to vote." That, of course, has been brought out in the attention of the nation during the past two decades, when thousands of boys under 21 fought in the Korean War and in the Vietnam War, and still more thousands have been, and are being, drafted.

It would be dangerous, however, to make an emotional appeal and a catch phrase, and therefore, it would be in order to consider some of the situations that might have escaped our attention and at least consider the matter more thought and not be misled by the emotional appeal of some catch phrase or other.

The catch phrase has naturally led to the proposal to lower the voting age is that "if our boys are old enough to fight they are old enough to vote." That, of course, has been brought out in the attention of the nation during the past two decades, when thousands of boys under 21 fought in the Korean War and in the Vietnam War, and still more thousands have been, and are being, drafted.

It would be dangerous, however, to make an emotional appeal and a catch phrase, and therefore, it would be in order to consider some of the situations that might have escaped our attention and at least consider the matter more thought and not be misled by the emotional appeal of some catch phrase or other.

So let's consider this "old enough to fight, old enough to vote" argument. And, in doing so, we might well remember that there were American boys much younger, even than 18 who fought in the American Revolution and in the War Between the States. There were American boys — and girls, too, for that matter — who fought the Indians and other enemies all through the era of our nation's being settled.

There is no question of the heroism of American boys or their ability to fight. The question is that of deciding on the voting age, because so long as the right to vote is determined by age, there must be a dividing line. We must either have a dividing line based on age or drop the question of age altogether. And as a matter of fact, the whole argument of lowering the voting age falls flat. The advocates of such "change" are basing their argument on something besides age. They are still using age as a determining factor. Actual age, that is, the age of 18, is not a plenty of boys — and girls, too — who are much more capable of casting an intelligent vote than many men, 20 years old or more.

There are individuals who will never be able to cast intelligent votes, no matter how long they live, but the right of franchise should not be denied to them while on leave. He was formerly stationed at K.I. Sawyer AFB, Michigan.

At Hamilton AFB he will be involved in three days for M-16 Rifle Training, after which he will go to McCord Air Force Base at Seattle, Washington, depending from there for Nha Trang, South Vietnam for one year.

His wife Ann and two children, Kenny and Patricia, left Philadelphia for Jacksonville, Fla., where they will make their home, while he is in Vietnam.

And if the age limit is lowered because boys of 18 can fight, it will also have to be lowered for the girls. Remember, the argument that girls should not be drafted would therefore be just as valid as the argument that the voting age should be lowered. And we should remember, too, that a large percentage of

our youth are not drafted at all, because of physical or other reasons.

Moreover, would not the argument for lowering the voting age also hold good in arguing that teenagers be allowed to purchase alcohol, to get married, to vote? And if a person is 18 years old, he is old enough to serve on juries, to pray with us, to execute wills and other legal documents. Many other valid analogies could be made.

Another fact to remember is that an 18-year-old in uniform is under the command of some

one who tells him what to do, when he votes, he is on his own and his personal judgment is his generally speaking good judgment, which will mostly prevail.

And if we let teenagers

vote, we shall not always be — either hot or cold. Let's therefore be wary of passing legislation that has a superficial appeal nurtured in the atmosphere of war. Voting requirements are supposedly permanent; war is supposedly temporary.

La cuota de café de Louisiana y Florida fue establecida a mas de 773,000 toneladas en 1960.

Un año mas tarde, subió en 10,000 toneladas. Al año siguiente, 1962, se elevó en poco mas de 4,000 toneladas.

Y no fue hasta 1963 que la cuota de café salto a más de un millón de toneladas, y desde 1964 se ha convertido en 1.1 millones.

Este año existe el problema de la producción de azúcar

Excediendo su cuota en mas de 300,000 toneladas.

LA ZAFRA AZUCARERA

EN LA FLORIDA, actualmente es solamente sobrepassada por la producción de Frutos Cítricos.

En el año 1967, se produjeron alrededor de 13,000 toneladas.

En los nueve ingenios de azúcar, las costas sur y este del Lago Okeechobee, están procesando esta fabulosa caña de azúcar.

Hace ocho años, la Florida producía un cuarto lo que sigue actualmente. Ahorita se produce más caña de azúcar que el Estado de Florida.

En el ingenio la caña de azúcar es aplastada y guitarra las fibras extrañas. La cristalización comienza en los tachos o pilas de azúcar donde el jugo despus de reducirse se enfria a una temperatura al vacío.

Tanques cristalizadores convierten el jugo en los tachos y en cristales, gradualmente. El proceso final, que separa el melado del azúcar, forma un producto que se llama "molasses" con que se alimenta el ganado y otros animales domésticos.

El azúcar y el melado ya frío son colocados en centrifugadoras para su esterilización. El melado es utilizado la miel, que se obtiene de los cristales de azúcar cruda. Despues de la separación, el azúcar cruda cae en un conductor, para ser almacenado en tanques.

En Georgia, hay una refinería en la que el azúcar cruda llega en ferrocarril, camiones y lanchones, para ser vertida en los productos para el consumo.

ENTRENAMIENTO DE APRENIZAJE

El Palm Beach County Study Committee fue organizado el pasado mes de Junio en el Washington Hotel, W.P.B., para hacer posible que la juventud pudiera obtener aprendizaje en diferentes actividades.

Entre las presentes representantes de escuelas, trabajo, administración federal, del estado, del condado, gobiernos municipales e organizaciones cívicas, y de Uniones sindicales.

CURSO DE ENTRENAMIENTO

Después de la fase de preparación y planeación, el South Florida Junior College abrirá dos cursos full-time para entrenamiento vocacional, para estudiantes que quieren estudiar en este otoño.

El primero es en el edificio, ordenando equipos, y dando empleo a instructores, para este nuevo tipo de programa.

Los cursos este otoño, serán aire-acondicionado, refrigeración, radio, televisión y electrónica.

La persona que toma estos cursos tiene que ser de la South Florida Junior College, 100 días a la semana, durante el año escolar. Para estudiar la técnica y prepararse para empleo después de su graduación.

Ulysses S. Grant, on his steamboat trip to Florida's Silver Springs, in the 1800's, was struck by the natural beauty of the Silver River and the "grand illumination," a fire burning atop the pilot house which enabled the passengers to see at night. No doubt, it kept the mosquitoes away, too!

**Science Teachers
Training Grant**

A \$200,000 federal grant for an in-service teacher program to assist Palm Beach County public school science teachers, has been released by the Office of Education of the Department of Health, Education and Welfare. It is announced by Superintendent Robert W. Fulton.

The grant will finance Phase One of the total three-phase program for completion by June 30, 1971.

The program, previously authorized by the Palm Beach County School Board, is described as a "teacher in-service" program to aid teachers in their efforts to teach science in accordance with a process approach developed by the American Association for Advancement of Science."

**WRESTLING
THIS WEEK**

KOA TIKI will face the Japanese, Saito Sakaguchi in a challenge revenge match at the Belle Glade Armory Friday night.

Last Friday night the Japanese had beaten Steamboat in the first fight and as the referee held up the Japanese fighter's hand in victory Steamboat lay in the ring grasping his throat. The Japanese fighter had used the "Knee Drop" which the referee did not see. Tiki, who was closely watching the match told the referee who then reversed the decision. During the match to Steamboat this action infuriated Sakaguchi who has challenged Tiki to a revenge bout.

Latin Tito Romero and Bob Griffen will clash in a four man tag team match against Arab Ali Wehbi and Jim Dalton.

Gift of the Gods, Miss Susan Slade and Miss Mae Young will also face each other in the Friday night matches.

NRA Endorses Bill To Jail Criminals Who Use Guns

The National Rifle Association today endorsed a legislative proposal by Rep. Charlie W. Sandman (D-N.J.), to put real teeth into laws against pooring stiff prison sentences on persons convicted of using guns in the commission of crimes.

Sandman said he would introduce his bill on the House floor.

He said he had suggested the measure recently to the House Judiciary Committee, which rejected it.

Painting is just one part of the arts and crafts program held this summer, and these students seem to be enjoying it.

This arts and crafts display shows some of the talents of Mrs. Hugh J. Rudder's students at South Bay School have shown.

Arts and Crafts Part Of Summer Enrichment

The arts and crafts program, according to Mrs. Hugh J. Rudder, instructor, is the 72 member class uses supplies provided by the Palm Beach County Board of Education, the PTA, and other personally donated supplies to make baskets, ash trays, flower paintings, and floral arrangements.

Mrs. Rudder said over 1,000 molds to cast objects of art out of plaster of paris are available to the students. Clay objects molded by the students are fired in the kiln.

While watching television, ten feet away from the set, have the set at eye level and leave a lamp burning in the room while the television is turned on.

Playing on the monkey-bars, swings and slides in the sun gives these students a chance to play together and have fun in the summer sun.
